Mission Statement

To empower all people to embrace their bodies, see their inherent value and enjoy dancing!

Program Statement

At Unite Through Dance, every student has different preferences, communication styles, and physical strengths. Many of our students have disabilities and need a teacher to understand and respond to their unique needs. We view each student as a whole person who we collaborate with in order to get the most out of our lessons together. Dance lessons are a creative process in which we explore different elements of music and movement and focus on playful exploration of dance and movement!
