► [Share](#) | [Print](#) | [Download](#)

Young independent choreographer looking for 2-3 open-minded male/female dancers with strong improvisation and contemporary technique.

Acting experience a major plus.

The work-in-progress will be shown at Movement Research at the Judson Church on April 25, 2011. There's further opportunity to show the work at a fully-produced concert in Vermont during July, 2011. Transportation and housing will be taken care of, performance and rehearsals unpaid.

I work very collaboratively, and respect individual creativity and sensitivity to the creative process.

If you're interesting, please email me your cv with answer to the following:

1) What are you biggest "body" addictions (for example, smoking, drugs, caffeine, food, etc)

2) Describe your relationship with these addictions.
