I am experienced in hop, salsa, break dancing, jazz and Bollywood Fusion for many years now and have been part of winning solo and group shows. I have choreography experience in an Indian and Western dance company by creating hip hop and Bollywood related dance routines. I have also taught children and adults in the past, including one to one session. Now I am at a point where I am trying to establish a new dance company offering various dance styles (I am also open to other dance styles like African, Zumba, etc. to as part of a collaborative company) and I want to expand it although New York area primarily. I have some great ideas for it so contact me if you are interested in this project. I know how the economic times are difficult as well so this is the best time to start a new, collaborative company and get your name out there. I have listed below a brief summary of my credentials.
