KINEMATIK Dance Theater is seeking a costume designer for their upcoming production INSEKTA, to be premiered at University Settlement in the Lower East Side/Manhattan on May 10th/11th/12th 2012.

Show info:

Insects represent over 90% of multicellular life on earth, dominating the biological spectrum with over 100 million species. KINEMATIK Dance Theater ventures into the bustling world of bugs, bees, ants, spiders and flies with the premiere of INSEKTA, a dance exploration of the intricate and complex microorganisms that surround us. Collaborating with technology artist Cheng-I-Wang, KINEMATIK depicts the diversity and the metamorphic cycles of insects through dance, live projections and the unusual use of props. Fusing technology with the movement vocabulary of Breakdance, House, Hip Hop and Contemporary modern dance, KINEMATIK creates an imaginative, unique and visually stimulating performance experience.

We are looking for someone creative and reliable and who thinks outside the box. Costume wise we are open to any ideas, but would prefer nothing too over the top, abstract rather than literal and simple yet effective.

Costumes need to be ready by the end of April.

To learn more about our company please visit our website at www.kinematikdance.com.

If interested please email a resume/artist statement and pictures of work samples and/or specific costume ideas/sketches to

kristina@kinematikdance.com

Please include contact info as well as how much you are charging.

Thanks so much and enjoy your day.
