EXIT 12 is a contemporary dance company committed to creating and performing works of high cultural significance that inspire conversations about worldly differences and the lasting effects of violence and conflict on communities, families, and individuals. Through movement, we educate audiences about the reality of war, advocate diversity and mutual understanding through cultural exchange, and champion the humanity and dignity of all persons.

EXIT 12 supports and advances the notion that art heals, and is devoted to serving those who have been touched by conflict by expressing their stories.

EXIT12 is looking for MALE dancers, ballet, modern, or contemporary, for paid performances in May, June, July, and August.

Performances this year include dates in Massachusetts, Lincoln Center, NYC, and the Intrepid Air and Space Museum.

Exciting repertoire from a diverse mix of choreographers.
