Hello!

Professional and free images of your child dancing:

I am a portrait, fashion and dance photographer. My work has been published in many publications including Elle, WWD, Harpers Bazaar and many more. I've been working with dancers in their 20's for the last few years, and would really love to start photographing child dancers. I would love the opportunity to expand my work and am offering free photo sessions with child dancers. Please email me with a photo, dance experience, and age of your child. Also let me know what area you live so we can work out a studio to shoot in. Feel free to check out my work: www.ilovemeagan.com
