WAXworks Applications now available. We now have both online & printable pdf versions. DEADLINE: August 5th, 2013!

Available Fall 2013 Dates: September 22, October 20, November 24, December 22, and January 19.

For more information or if you have questions about the application and booking process, contact WAXworks Production Director, Alexandra Burley via voicemail at: 718.599.7997 or [waxworks@wax205.com](mailto:waxworks@wax205.com)

WAXworks is an inclusive performance showcase that offers new and experienced artists the opportunity to present their work on a professional stage with substantial and versatile lighting, sound and technical systems. Any kind of stage work is welcome - we invite dance, theater, music, video, performance art, poetry, comedy, juggling, singing, puppetry, acrobatics, monologues or anything else that can be performed on a stage. There is no audition process and few technical limitations.

WAXworks is designed to help artists advance their creative process by viewing their work through the objective eyes of a live, enthusiastic audience: guided by the WAX staff, audience members are invited to share their constructive criticisms, reactions and ideas with the artists in an anonymous written format. An involved audience is a supportive audience.

For a nominal fee, artists receive a half hour tech slot and a split bill performance opportunity for work up to 12 minutes in length; in addition to the performance, participants receive the audiences written feedback forms, and a video documenting their performance. In addition to performance services, we are now able to offer constructive criticism on press-kits and artists statements submitted as a part of the WAXworks application. By engaging in this process, artists take part in a "learn-by-doing" method of preparing and refining materials which they will need for other, forward looking opportunities.
