Looking for a female dancer for a new work, Ache, to be performed three times in April at Green Space Blooms (in LIC) and WestFest at the Westbeth Building in the West Village.

You would be working with two other very talented dancers and the piece is developed in collaboration with the choreographer. (So I am looking for someone interested in contributing to the creative process. We have a lot of fun too). Rehearsals are held on Sunday mornings leading up to the performances. Ache is a work in progress that will develop into a longer, evening length work and dancer will have the opportunity to also be involved in this extended project.

Please send a resume and short clip of dancing to amanda@amandaplusjames.com and feel free to contact me with further questions!!

This is an unpaid opportunity.
