The Works

*Call for Choreographers!*

HATCH Presenting Series was created in the Spring of 1997 in response to the need in the dance field for a cost-free space for emerging choreographers to investigate new work, present works-in-progress and engage in dialogue with the audience, free from financial pressure and the scrutiny of critical response.

This program presents Saturday evening performances each year sectioned into Fall and Spring series. The emerging choreographers who participate in the HATCH Series vary in age, perspective and technique. The Works believes that each of their voices deserves a platform for mentorship and performance. The dances offered range from solo to group pieces, some accompanied by live music or actors. The series has presented over 775 choreographic works.
