Katy Dammers

Proposals must be submitted to info@ilandart.org by October 20, 2014.

Following the successful inaugural year of the iLANDing Laboratory Initiative, we are pleased to announce that the program will continue for a second year. The 2015 iLANDing Laboratories will continue in an experimental format as a series of workshops/laboratories designed by members of the iLAND community as well as those with a strong interest in proposing a Laboratory that aligns with iLAND's mission and the values of iLANDing (for more information please see appendix on our website). The Laboratories will serve as focused forums and platforms for a reflective, advanced discourse around urban ecology, kinesthetic experience, and new approaches to interdisciplinary creative processes and draw on the history of iLAND programming which has been cultivated over the past eight years through the iLAB Residency program, iLAND Symposia, and the development of the iLANDing Method.

This Request for Proposals is open to all past iLANDing Laboratory participants, iLAB Residents, iLAB applicants, Symposium participants and others with a strong interest in proposing a workshop that aligns with the values of iLAND. New combinations of collaborators are welcomed and encouraged. Past iLANDing Laboratory residents are welcome to reapply for continued support in order to deepen into the process of a previously presented workshop. Laboratories will take place between March and July 2015.

An honorarium of \$250 will be awarded to accepted proposals to assist in covering workshop expenses. iLAND will assist with online and print promotion for the Laboratories and provide planning support and mentorship in designing the laboratories

Proposals must be submitted to info@ilandart.org by October 20, 2014. Please limit your proposal to a two pages and send as a PDF attachment. If you have questions, please contact Jennifer Monson at 917-860-8239 or jennifer@ilandart.org. Final decisions will be announced by November 20.

We hope these workshops will provide an opportunity to share your current work and interests as well as to revisit and expand upon ideas that might have been initially explored during previous iLANDing Laboratories, iLAB Residencies, and/or iLAND Symposia.

For more information and an Appendix on iLANDing practices please visit our website, www.ilandart.org.
