Looking for a senior couple who love dancing to be the stars of a music video. It's a disco song, so the dancing is freeform. You don't have to be a trained dancer, there's no choreography, you don't need to know any social dances (no ballroom, salsa etc). You just have to really put your heart and soul into it, and get down and groove.

Ages 70-100. All races and ethnicities encouraged to apply.

It's not a paid position, but it should only take a few hours, and you will receive a beautiful video of yourself dancing.

We know there must be some amazing older dancers out there in New York, but it's a really hard thing to search for. So if you have any recommendations for us of someone we should contact or somewhere we to look, please contact us with ideas. Any leads will be much appreciated.
