Hi my name is T and I have a single out now that's generating a buzz, and receiving spins from djs throughout the country and different parts of the world, like the UK, Germany and France. I'm seeking a very talented, passionate about his or her craft, really dope, experienced and or up and coming choreographer to work with me and a few back up singers to create some dope edgy choreography for this particular single. It's a very soulful single with a really dope mid tempo bounce/hook to it, so you must be very comfortable with, and passionate about creating choreography for RNB and Soul/ Urban, and even pop type music. I want this choreography to be incorporated into my performances and possibly the music video for the single. My manager and I are in the process of securing a booking agency asap, so I will have scheduled performance dates lined up very soon.

Currently, I have a limited budget, however, I will definitely compensate you for your time and talent in assisting me and my backup singers in creating choreography for my future performances, however, I'm unable to offer a big salary at this point but you will definitely be compensated modestly for each rehearsal per hour, which I'm figuring would be around three hours per rehearsal. As I begin to generate more gigs and greater demand, obviously I can, and will increase your salary accordingly.

If you are interested in this opportunity, please send your dance choreography reel if you have a nicely put together reel of all of your choreography work, that would be ideal, however, if you just have video footage of yourself choreographing dance routines, that's fine also, however, please make sure you are actually dancing in at least a couple of the recorded routines, so I can get to see you in action and I actually can see you choreographing dance steps and moves. Please be easily identifiable in the videos. Also I need you to send clear full length photos of yourself, so I can easily identify you in your video work. Also, I need a resume listing your experience and credentials if any.

I understand if you're a new on the scene and up and coming choreographer, you won't have an extensive list of credentials. At the end of the day, regardless of your experience level, I'm looking for someone who is focused, mature, a leader, great in his or her ability to give instructions, even tempered, patience, very naturally skilled and talented. The proof will be in your video work. Send all material to tmccraemusic@gmail.com Thank you
