I am a new choreographer looking for a few people who can help me bring my ideas into body, shape and light. The style of dance I'm hoping to achieve is a synthesis between contemporary, ballet, Middle Eastern and ancient Egyptian, and will focus on themes such as creation, ecstasy, the hero's journey, and victory.

The pieces will be choreographed to music such as the following:

Here are some videos of dance styles I want to employ:

<https://www.youtube.com/watch?v=c-tWOCKvdDI> (for the fire, fluidity, precision of form and spontaneity)

https://www.youtube.com/watch?v=q3m_mwRKMco (for the general aesthetic, not the technical quality or movement)

<https://www.youtube.com/watch?v=svlqyiZTOeO> (for the mudras and hand movements)

Message me if you have inspiration and a similar creative vision.
