Creating a fashion film for a high end fashion label on a very low budget.

Need a size 6-10 African American female dancer with background in Ballet and African/Sinegal style of dance.

The dancer will need to collaborate with our director with choreography. Our team are not dance experts so we'll need you to go easy on us when it comes to terminology, we know the look we're going for, not necessarily how to get there.

It will be filmed over x1 day in a photography studio. This video will premier on large platforms such as Nowness and I.D.

Please email arielle@cinemathom.com with 'Dancer Opportunity' in the heading with your headshot and a little about yourself. If you have any links to your work, in specific, the style of dance you're most trained, please include in the email.

Thanks!
