Choreography and Producer For New Ballet - Cycle of the Earth

Company: Steven Lebetkin

Location: New York, NY

Compensation: You would be the producer and have productions rights

► [Share](#) | [Print](#) | [Download](#)

am a composer and have completed Cycle of the Earth for Symphony Orchestra.

Cycle of the Earth is a ballet for symphony orchestra. It is a musical and dance work reflective of the earth's life cycle. The ballet traces the earth's environmental experience from its origins through the Ice Ages (where the music of the ballet begins). Mankind defiles the earth, which results in the premature destruction of life on earth. The earth devours its visitors (mankind) and returns triumphantly to the next Ice Age.

You have the ability to arrange for a production of a great new grand ballet. You must have the energy, contacts and prestige to create an opportunity.

Total performance time is about 55 minutes.

Please do not write to me asking about the scheduled date of a production. That would tell me you haven't read this carefully.

The complete recording on Youtube is here https://www.youtube.com/playlist?list=PL_7oEgsefVgsP6s1lDKDTbT4DwjankJP

Thank you.
