Urbanity's new choreography intensive is designed for emerging and even more established choreographers, ages 17 & up, who want to dig into their craft and explore their artistic voice. Join a tight knit group of seven emerging choreographers for a week-long intensive with established Boston choreographers. Learn different approaches and perspectives in choreography, gain feedback on your own work, undergo creative challenges, and grow as an artist and dance creator.

Students will explore questions such as:

What is your unique artistic voice? How do you define your current aesthetic?
What types of creative influences would you like to add to your tool kit?
What does it mean to choreograph for the community?
What role does sound or music have in your work?
What dream collaborators would you like on your team? How do you bring your dream team to fruition?
Your work can be your weapon. What does art and activism mean for your work?
What opportunities are available for you to continue developing your work? What are your next steps, next goals?
How will you continue to nurture your creative spirit after this program?

Students take daily choreographic composition classes and dive into their own work, using dancers from the Urbanity community, and create a piece to be showcased at the end of the program. Students are offered personalized mentorship and feedback throughout this process. In addition to developing their choreography, students gain insight into administrative skills necessary for any choreographer, including applying for funding, advocating for their work, marketing, and gathering their creative dream team.

Another benefit for students is access of up to 15 hours of free studio space before, during, and/or after the program to workshop their ideas (\$225-750 value, per studio size)
