International Ballet Institute | New York, located in Greenpoint Brooklyn is looking for Ballet, Tap & Musical Theater teachers for both the summer of 2018 and the 2018/2019 school year and possibly the spring of 2019.

Must be able to work well with children ages 3-6 and/or have an interest in learning how to do so. It's fine for applicant to be able to teach either multiple styles or only one style.

We are primarily a ballet school but we also want our students to have access to and understanding of, a broader dance industry. Our school also offers dual French/English Ballet classes, we have an affiliation with the Met Opera Children's Chorus (non singing) and summer program in France.

We are looking for dancers and teachers who would like to be a part of a quickly developing institution. If you have experience in other areas (admin or artistic) please feel free to let us know. We seek to develop the techniques and the minds of our students. We value having artistic and administrative staff with wide minds who will bring their whole creative selves to the table.

Please copy and paste cover letter and CV into the body of the email in addition to attaching the same as PDFs.
