Vozdukh Project\* is the place where ART, society and human beings meet each other and have the chance to engage and connect through body language and movement.

Vozdukh Project applies contemporary plastic theater methodology and is a school of work for the main instrument we have – the body.

\*Vozdukh means AIR.

All our initiatives are built on the principles:

STORY, we raise issues/ problems / stories that concern a modern society. As well as us cause we are a part of it.

COMMUNICATION, we have no a concept of "audience", everyone becomes a direct participant of performance and any workshop.

IMPROV, the action is always born at the moment because of what he heard momentum, interactive, history, musicians troupe.

MOVEMENT, body as an object of contemporary art, backed by contact improvisation, acrobatics, modern dance techniques.
