CPR Presents: Spring Movement 2018

April 12, 13 & 14, 2018

The Center for Performance Research (CPR) in Brooklyn, New York is pleased to accept applications for Spring Movement 2018. CPR invites applications from artists working within the various aspects of dance and performance as well as pieces that incorporate technological and visual art elements. Please keep in mind, CPR has a LED repertory plot, projection capabilities and a full sound system. No additional equipment can be provided. Pieces proposed for presentation should be no more than 15 minutes in length, including any setup or breakdown. CPR loves to host artists from outside of New York, but cannot pay for any travel costs or help with accommodations in NYC at this time.

If you would like to be a part of Spring Movement 2018, please fill out the following application form. Please note that incomplete applications will not be accepted. We strongly suggest applying with a video of the proposed work (even if it is rehearsal footage), however video of an alternative work will be accepted. Please submit continuous footage from a single work, rather than a performance or choreography reel. We can only accept video samples shared via online video sites such as Vimeo, YouTube, etc. Please make sure that the link works properly before submitting your application, and include cue points for all videos, noting that panelists may only watch 1-2 minutes of footage.

In order to apply, artists need to be available to perform any of the three nights of the festival, as we cannot accommodate specific scheduling requests. Submissions will be reviewed by CPR Staff and artistic advisors, and 10-12 will be chosen for presentation during Spring Movement.

If your work is chosen you will be notified no later than Tuesday, February 27, 2018. Each participating artist will receive one fully produced performance in CPR's theater space during the course of the three night festival. CPR will provide a small honorarium to the selected choreographers. This performance will include the support of CPR's technical and production staff, as well as full marketing support. Selected artists will have one technical rehearsal between April 9, 10, & 11 in the evening. They may state a preference, but need to make every attempt to be available for either of these three nights. Participating artists will also be entitled to two complimentary tickets for the night of your performance.
