The Holloway Picture

Company: Student
Compensation: Unpaid

Dancers needed for NYU short film, "The Holloway Picture":

Synopsis: In a future where movies are made by A.I., one woman uploads a human-made film of the past to disrupt the system of simulations and resurrect the role of the artist.

The dancers are "workers" who will be hooked up to the computer to test the engagement of the A.I. movies. In the fantasy-like dance sequence, they will become interconnected, forming a mesh of human and machine.

Shooting on Saturday, March 24th. 1 - 2 rehearsals prior. Please message with your availability in the coming weeks.

Thank you!

Student
