Dancers preferably 18+ (professional students 14+)

Company: Project Work

► [Share](#) | [Print](#) | [Download](#)

Compensation: no pay/ video/ resume builder/ creative process

Hello,

I am a former ballet dancer looking to expand my choreography. Over the fall semester/ (September to December) I am looking for dancers to collaborate with. If I can get enough dancers together I want to create a contemporary dance piece which would be filmed. The work will be based out of the Phoenix, Arizona area.

What you receive:

Get to be apart of a collaborative relaxed artistic environment

Studio Space

Filming of the finished work/maybe a chance to perform it

What I am looking for:

A resume, or short letter of dance experience

What style you primarily enjoy/train/ perform in

What time you would available on a somewhat consistent basis from September - December

Dancers who are open to a creative process

Pointe experience is a plus

Please note this an unpaid project yet there is a lot of flexibility in scheduling (even if you are available for a few hours over those months). If you are a student looking to grow your resume/grow in different styles, a professional looking to have fun and be apart of a low stress creative process, or a dancer who is in-between jobs this would be a wonderful project for you. If you have a friend or dancer interested in this type of work feel free to share and be apart of this process together!

I am accepting dancers from out of town as well please apply if you feel you have some availability in the phoenix area over the next few months. Housing help and rooms may be arranged if needed.
