We are excited to announce our Adv./ Pre-Professional track this year at The Forum! This track will include a morning technique class in ballet, modern, or contemporary, to be followed by creative process and repertory with various industry artists. This track will be heavily discussion and process oriented and geared towards connecting emerging dancers with concert choreographers and professional company dancers with the goal of learning more about the professional field and how to succeed. It is a great program for cultivating a personal voice in collaboration with other highly influential creators. Possible opportunities for creation on the younger program may also arise.

When: Aug. 8-27, 2019

Cost: \$1275 for entire 3 weeks (Partial Scholarships Available)

**No Housing provided.
