A high visibility, low-tech forum on Monday nights at Judson Memorial Church throughout the fall and spring seasons. Movement Research at the Judson Church is one of a number of MR programs intended to serve as a creative laboratory and incubator for wide-ranging artistic investigations in movement-based forms; this series is a platform for artists at various stages of their creative development.

Movement Research at the Judson Church artists are selected through an application process reviewed by a rotating committee of peer artists; each season the Artists of Color Council (AoCC) invites a member of the community to curate three artists to participate. These artists are joined by Movement Research Artists-in-Residence and GPS/MRX exchange artists.

Basic tech info/specs: There is only standard (non-theatrical) lighting and a sound system capable of connecting to a device via an auxiliary cable (iPhone 6 and lower, iPods, laptops, etc) and playing CDs. No other technical equipment will be available for use unless you provide and operate that equipment independently. The dance floor dimensions are 46'7" wide by 49'5" deep. This measurement does not include the altar, audience, or back of house.
