At its 7th edition, Ticino in Danza is happy to offer a Campus for dancers and choreographers to work together and explore new ways of perceiving and creating movement. This extraordinary program combines somatic movement with technique, instant composition with architecture and space.

a??

Campus LAB is an intensive program for students of advanced level and young dancers/choreographers who intend to expand their research on the body, who look for deepening their experience and aim to build an international network.

Every year Ticino in Danza hosts a site-specific Contemporary Dance Festival that presents international performances and brings together artists and students.
