CBA is an international research institute for scholars and artists of ballet and its related arts and sciences. It exists to inspire new ideas and new dances, expanding the way we think about the art form's history, practice, and performance in the 21st century.

Our fellowship program awards residencies to artists and scholars across all disciplines (from History to English and from Music Composition to Theater) to work on original projects related to dance. Applicants are not required to be experts in ballet but must have an interest in engaging with the art form. The fellowship provides space, financing, and time for fellows to pursue rigorous work.

Applications are open through Friday, November 1 at 5:00pm EST. Click [here](#) to apply.
