Young (23-35) Male Asian Actor/Dancer needed ASAP for the role of Saburo in a Japanese operetta performance. The performance is part of the Sounds of Arts Festival at The Secret Theater and takes place on November 24th. Choreography is primarily in a modern dance style and upper body strength is required as there are lifts in one of the dances. The operetta is in Japanese but because this character only speaks one line, knowledge of Japanese is not required. In addition to the dances, the character will appear in 6 scenes of the operetta so availability for rehearsal schedule is required. To learn more about the show, please visit the show website www.jyou-en.com. The content on the website is from a previous production. Please email if you are interested. Thank you.
