Looking for Partners for Outreach Program

Company: TBD

Hannah Schroeder

I am looking for individuals to join me in the very early stages of a dance community outreach organization. I have always had the dream of using dance as a tool to reach others all across the world. I want to explore what it looks like when there is no separate stage and outreach program. I want to explore what it looks like if they were always one in the same. Recently, I have been the opportunity to partner up with specific organizations that are holding mission trips to various countries. After sharing my goals with these organizations, I have been granted the opportunity to bring dance into these mission trips. However, I need a team to do it with! If dance, inclusive movement, and community outreach is a passion of yours, I would love to speak with you and get to know your background and see how you align with this vision.

Please email me at kelseebooker@gmail.com with your interest, bio, and dance background.

TBD
New York, NY
