Hi there!

We are currently hiring, but we only accept applicants who have completed our teacher training program. Our teacher training program is a high level training for dance and fitness instructors looking to expand and improve their teaching practice. Applicants to the program must already be certified in either group fitness, yoga, Pilates, or have a personal training certificate. The program includes 15 classes, small group workshops, and one on one training and guidance from our CEO and founder. We have a training coming up at the beginning of February and it seems like you'd be a great fit! *Please reach out to us directly for pricing and information.* If the program sounds like a match for you, we'd love to have you join us in February!
