We are currently hiring dancers, dance instructors, choreographers and/or cardio fitness instructors that will work 1 on 1 with our artist - singer and musician. The artist has a very non-stop high energy show. We would like to implement a new exercise in weekly scheduled where the artist is dancing and working out while singing to build endurance for stage show.

You as the instructor would lead the artist in movement, dance and/or cardio exercises while the artist follows along while singing. You would also be driving and motivating the process.

Routines can be different and at times made up on the spot. It's all about getting the heart rate up and moving.

We are not looking for a 100% choreographed show, although there is always an opportunity for the future to implement choreography for the artist's live events.

Sounds fun? It will be!

If interested please send a cover letter with link of you dancing with your contact information and a few times where you are available for an initial phone interview. Thanks so much!
