KR Photography

Social Distancing Collective is composed of a group of international artists (composers, musicians, videographers, photographers, dancers, and graphic designers) deeply impacted by the world wide shut-down caused by COVID-19.

Social Distancing Collective strives to connect artists across all borders in one voice through love of music and movement. We have set out to create a film that strings together the narratives of individuals around the world as they navigate this sudden new way of life. In a world that feels so disconnected and confined we are looking to find new ways to move together, collaborate, and create. We are anyone and everyone. It doesn't matter if you are new to dance or a seasoned professional, we are all dancers and artists at heart.
