Operations and Systems (IT) Internship with Jacob's Pillow

Company: Jacob's Pillow
Location: Becket, MA
Compensation: \$2000

► [Share](#) | [Print](#) | [Download](#)

The Operations and Systems intern assists the Director of Operations and Systems and works with both the Database Administrator and the Associate Systems Administrator to provide technical support to the staff during the festival season.

Technology is a permanent fixture in our daily lives and work. Technology applications in the arts is an often overlooked but emerging area of interest for many arts organizations. As we learn how to create pathways to access and inclusion, technology helps create and sustain this work. Diversity of experience, ability to scale to needs digitally, and the impact on individuals to engage in the arts are all inherent in the work.

The Jacob's Pillow Summer Intern Program is now accepting applications for Festival 2022. Jacob's Pillow Interns receive on-the-job training to develop professional skills and gain practical experience while working in a team-oriented environment. Internships specialize in performing arts administration, technical production, education, community programming, and more. Interns receive room and board (on-site housing plus 3 meals a day) and a stipend of \$2,000. Candidates may be eligible for additional needs-based compensation through sponsor support. Internships include access to performances, talks, and dance classes, as well as staff-led career talks and seminars. College credit, work-study, independent study, and/or cooperative learning programs may be available through your school. 2022 Summer Festival Internships will run May 24 through September 2.

Apply by February 3!

Jacob's Pillow
358 George Carter Rd
