Tobia St. Germaine

Drye/Marinero Dance Company will be presenting work at St. Jeans Theater NYC on Saturday, April 30th at 2:30PM & 6:30PM. The Work we are presenting is entitled "Creation" and connects our Journeys in Spirituality and Faith using the book of Genesis as reference and a way to celebrate living. More than ever our connection to God, love, and prayer are super important and we want to connect with other Artists who are creating work around their faith. We are looking for a few choreographers or companies of any genre of dance who would like to share the stage with us that evening for one or both performances. The work should be less than 6 mins in length and be centered around themes of hope, faith, and spirituality. To give back to the dance companies chosen to present work, each company will receive complimentary photos and videos and will also receive a portion of ticket sales sold under their company or religious organizations name. Special consideration will be given to groups connected to churches, youth groups, or other religious organizations. For Consideration please send the following:
