Miki Powell

MindLeaps is an NGO working in East and West Africa, the Balkans, and the USA to empower vulnerable youth through a dance-based program. The program improves cognitive skills and social- emotional learning to help youth perform better in school and make positive life decisions. MindLeaps 2022 training offers a two-week intensive dance study in the organization's standardized methodology. This training is designed to enable you to teach using this specialized pedagogy and methodology.

Participants who successfully complete the program are eligible to teach at our program locations. We have immediate hiring needs for our USA team.
