CRDANCE and TDM invites international undergraduate and graduate students, as well as professional dancers and choreographers at all levels, to apply now for this rare opportunity.

TDM, a division of CRDANCE Company, LLC, continues its highly innovative program of teaching and exploring the history of modern dance and choreography. TDM's Summer Intensive 2024 takes place in San Lucido (CS). During this week intensive, students will gain rare entrée to choreography and dance technique including a behind the scenes look at what it takes to choreograph a new work, and what it takes to sustain a choreographic work once conceived. The residency offers students a highly focused series of talks about performance and dance technique with a focus on Italian and American modern dance. Dance technique is an essential component of the Intensive with a special emphasis on interpretation and the skills required to execute modern dance and choreography.

This experience gives students a direct and active working relationship with Artistic Director Caterina Rago. Students will acquire first-hand knowledge of the specific language and thinking that fuels Caterina Rago's creative process and decision-making. Students will learn to question and interpret dance at a level rarely experienced. For Summer 2024, TDM explores the choreographic repertoire of CRDANCE Company and what it takes to build a dance from the ground up. What does it take to manage a professional dance career as a dancer and choreographer? For the answer to this question and more, apply now to TDM'S Summer Intensive 2024.
