We are currently working on deep research into the materiality of beach balls in our rehearsals and we are looking for five more dancers to join our group. There are rehearsals in December, January, February, March, and April. We will be in pure research mode through early January, investigating the fundamental nature and the social, political, and economic contexts of such things as beach balls, sand, babies, waves, and sunlight. Then we will transition to a mix of research and performance preparation. There is a private showing in the works for late Jan/early Feb and a tour within New York State in the works for mid-April.
