WATERMELON25 is a one night show on the last day of June, 2025.

[We are seeking submissions for proposed performances.](#) They can be as short as you want or as long as 10 minutes. These should be original works, ideally based in improvisation, and should all reference watermelons in some way. They do not have to be finished yet, or even started. Even if its just an idea, please toss it our way.

There will be no compensation for the performance, as all ticket and beverage sales will go to support a family in need.

However, you will receive support in planning, connecting with resources, and encouragement throughout the making process.
