Jackie Furtado

In search of male dancers for a performance art piece to take place at The Kitchen (NYC) by artist Gordon Hall in May 2025.

Performers need to be between 5'4 and 5'7" tall and weigh less than 150 lbs, as the performance involves the use of props that hold the performer's bodies while being carried around the gallery.

No particular dance training is required, but the performers need to be strong and agile. Modern, ballet, jazz, gymnastics, pilates and yoga would all be good preparation for this role.

Performances will take place on May 9, 10, 17, 24, and 31, though unavailability on one or two of these days is not a problem, as casts will shift.

Trans inclusive, seeking a diverse cast.

Please get in touch to learn more.
