Peter Van Demark

United Flamenco's Creative Immersion Residency supports the development of new flamenco works. This experience offers artists the vital opportunity to explore and innovate within the flamenco tradition while nurturing their unique creative voices.

Two artists will be selected for a full creative immersion cycle to take place between March and August 2026. Artists will engage in an initial exploration and development phase, a residency at Windhover Center for the Performing Arts to refine and present the work, as well as post-residency culmination phase.

We invite dancers, guitarists and singers working with flamenco as a part of their practice to consider this opportunity.

Proposal Deadline: December 19
