Linda D'Amico's Academy of Dance in Pequannock, NJ is looking for dance artists who are interested in creating and leading their own stylized dance classes starting now, in February 2026, or for the 2026 summer season.

We appreciate diverse new visions and are interested in fostering dance artists who want to bring their own nuanced class to LDAD or try out a new curriculum. For example, we now run an acro/jazz fusion class for dancers simply looking to learn how to balance upside down and dance with musicality. We would advertise the classes to our dancers and on our platforms.

We are not looking to rent the space, but are instead looking for employees (with hourly pay) who would like support in creating their niche.

We are especially interested in finding a teacher to continue our 'Boys on the Beat' program, a low-stakes hip-hop class for young boys to improve their social dance skills without a performance, which we are offering in (one class weekly) 4-week and 8-week sessions. We also welcome interest in providing adult class offerings to add to our adult dance programs. Whatever your teaching interest, we could be the space for you to start it!

Please contact [ldadancers@lindadance.com](mailto:ldadancers@lindadance.com) to begin building with us!
