I have been commissioned to compose dance piece and am in need of a choreographer to help with development. The end goal is a full length "ballet" (not sure yet if it will be classical or modern) to be performed in a venue TBD.

Initially, we are to create 10 minutes or so as a proof of concept for the individual who commissioned my for the piece and then go from there.

I am looking for an experienced choreographer who can work side by side with me to develop the story, hire dancers and run rehearsals.

Send a resume and links to previous work that showcases your choreography
