danseurs!!!

This coming December, PROJECT 44 will open its arms & studio space to new male (identifying) dancers interested in working with the group. This mutualistic meeting process is unique in the fact that in addition to a movement fit, PROJECT 44 looks to find movers that are seeking to form a connection with the group. VERY interested in dancers that also bring admin, marketing, digital, & grant writing experience/interest. To be considered for an interview AND movement meeting please send a cover letter, resume/bio, photo to info@project44dance.org Re: New Collaborator

•

Though PROJECT 44 IS A PROJECTED BASED GROUP, we strive to offer opportunities to our family of collaborators before outsourcing. Some of our 2020 dates include Jan creation intensive with French Guest Artist, Feb Season at Green Space Studios, CDI Residency, MMAC season May, potential national & international touring.
