ERZSÉBET, THE MONOLOGUE | A new play about Elizabeth Bathory.

Her story inspired the origin of Vampire novels, Blood Bathing beauty rituals, Heavy Metal bands, even Lady Gaga's Countess on American Horror Story, and created an immortal legend of the Transylvanian Countess. Although, what is truth about her?

Erzsébet is interpreted as a metaphor to what happens to women in political and powerful positions and the double standard to which they are held.

Staring role Visually Impaired Artist #vidancer, Krishna Washburn.

An intimate encounter with ERZSÉBET, the Countess Elizabeth Bathory.

Monologue specially created to participate at the NY Theater Summerfest 2019.

40 Min Performance Split Bill Show
