We assume you know that in Milongas we actually dance to 3 different musics: Tango, Milonga and Vals. And no - Vals is not a faster and happier Tango. It definitely is faster, and definitely happier, but has its own steps, its own musicality and its own rules.

You have two choices - you can start to learn all 3 types of Tango at the same time. It will be difficult, but rewarding. Or: You can start with Tango and only after you advance you start learning Vals.

This class is meant for absolute Milonga newbies as well as for people who danced Milonga but have problems with understanding musicality and define musical accents.
