Inclined Dance Project, under the direction of choreographer Kristen Klein, presents the World Premier of the company's newest evening-length work, *Alone With Everyone*.

Alone With Everyone is an evening length dance work presented in two chapters that explores themes of grief, isolation, identity, change, and community. Comprised of 2024's "Fog" and the world premier of 2025's "AWE", the two works explore one's ability to cope with and move on from trauma. How can one find motivation following a life-changing event? How does such an event alienate us from our family, friends, and community?

The complete evening, *Alone With Everyone*, will display a complex journey of healing and acceptance through its two complimentary works.

The evening will also feature a world premier work by special guest companyalma Collective, directed by choreographers Kat Bark & Bianca Dam.
