Sikora + Dance presents its 2025 Fall season in An Evening of Sikoreography. This season marks the first program made up entirely of choreography by Artistic Director Caitlin Sikora, a celebratory milestone after nearly 20 years of making dance works. The company will be performing *Sharp Woman*, a powerful trio developed and premiered as part of Green Space's 2025 D.I.G. Artist Residency. Sikora will also be premiering a vibrant new dance inspired by a recent trip to Cuba with her husband.

ABOUT THE ARTISTS

Sikora + Dance was founded in 2022 by Artistic Director Caitlin Sikora after 12 years of self-producing choreography as an independent artist. Sikora is an NYC-based dancer, choreographer, media artist, and software engineer. She earned undergraduate degrees in Physics and Dance at UC Irvine, continuing on to an MFA in dance from NYU's Tisch School of the Arts and an MS in Integrated Digital Media from NYU's Tandon School of Engineering. With strong roots in ballet, modern, and contemporary dance forms, alongside unique influences like ballroom dance, New York Minimalism and conceptual art, Sikora celebrates the beauty of the body and the dualities that challenge the mind. Her creative work is both cerebral and visceral—dealing with emotional and existential complexity through physically demanding movement sequences that weave into gradually transforming patterns.

Sikora's movement and performance aesthetic have been shaped by her time performing with the Hannah Kahn Dance Company and in works by William Forsythe, Merce Cunningham, Ohad Naharin, Cora Bos-Kroese and Winifred R. Harris. Her choreography and digital creations have been featured in the Boulder International Fringe Festival, Warwick Summer Arts Festival, MIT's Hacking Arts Festival, and SXSW. She currently works on AI and Human-Computer Interaction at Google while continuing to build her company of bright, talented artists.
