Ballet Hispánico brings communities together to celebrate and explore Latino cultures through innovative dance productions, transformative dance training, and community engagement. Ballet Hispánico is the nation's leading Hispanic/Latine dance company and the largest cultural institution of its kind in the United States. For over five decades, it has been a beacon of artistic excellence, celebrated for its bold repertory and exceptional training programs. The Company has commissioned over 100 original works, performed on the world's most prestigious stages, and inspired generations through performances, education, and community engagement.

At the helm is Artistic Director & CEO Eduardo Vilaro, a former Ballet Hispánico dancer and acclaimed choreographer who assumed leadership in 2009. Under his dynamic guidance, the Company has entered a new era—broadening its artistic scope, deepening its repertory, and elevating its distinctive movement language. Vilaro carries forward the founding vision of Tina Ramirez, who launched Ballet Hispánico in 1970 to celebrate the beauty of Latino cultures through dance. Today, Ballet Hispánico stands not only as a cultural institution, but as a movement—pushing the boundaries of performance while honoring the traditions that shaped its legacy.

### The Next Generation of Ballet Hispánico

BH2 is Ballet Hispánico's second company, comprised of select pre-professional dancers from the organization's renowned Pa'lante Program. These emerging artists represent the next generation of Ballet Hispánico—bringing technical mastery, versatility, and passion to the stage as they step into the vital transition from training to

professional careers. Guided by acclaimed faculty, guest choreographers, and Ballet Hispánico's celebrated repertory, BH2 dancers gain the performance experience and mentorship that prepares them to lead with artistry, voice, and vision. Performing across the tri-state area, BH2 expands Ballet Hispánico's reach while offering audiences a glimpse of the future of dance.
