Crossing Points is a repertory of new work to be presented during the Spark Theater Festival on November 3, 2023, at the 28th Street Theater in the Flatiron district. The Spark Theater Festival is widely recognized as a platform for showcasing work-in-progress shows, providing artists with an invaluable opportunity to conduct a preliminary audience test of their productions.

Grazia Capri, Founder of corpi\_GRAZIA CAPRI Dance Company, directs and choreographs four pieces exploring themes of immigration, generational divide, loneliness, and personal journeys in women's lives. These works are performed by Grazia Capri and Irene Paci, with music composed by Stefano Cavazzini. Divided into four segments and enriched by immersive video projection, this 60-minute show marks the premiere of these works. The performances will be followed by a fifteen-minute artist talk for direct audience engagement with the Director and Choreographer Grazia Capri and the dancer Irene Paci.
