Becca Vision

TDE serves to create informed advocates of the creative arts through continued learning, community advocacy, and personal agency. The residency is enhanced when a collaborative experience is created to include other physical modalities and disciplines (ex. choir, spoke word, theatre, instrumental music, and etc.). It will provide tools to create any variation of non-genre specific partnering skills. The students will gain awareness of individual and shared space by utilizing various aesthetics. The skills acquired during this residence are applicable towards the advancement in education and career placement.
