Introducing GPS Chats!

Featuring Aleksandra Borys and Wojciech Grudziński (Poland) in conversation with Hadar Ahuvia and Mariana Valencia (NYC).

GPS Chats is a new series offering GPS artists in residence a platform to share about their creative practice and living and working as independent contemporary dance artists in their cultural contexts. The series features international artists in conversation with local artists about the importance of international cultural exchange on the development of their creative practices.

This inaugural GPS Chats is launching as part of the Movement Research Festival Fall 2018 and features Polish artists Aleksandra Borys and Wojciech Grudziński in conversation with Hadar Ahuvia and Mariana Valencia.

[This event will be held in the courtyard studio at Movement Research's new home in 122 Community Center at 150 First Avenue.](#)
