Abrons Art Center

466 Grand St. (at Pitt St.)

## MELT: Movement Technique and Performance

This movement class will develop from simple skeletal mobility sequences to full-out movement forms. Emphasis will be placed on the joints, examining how range of motion relates to alignment, support, weight, pathway and qualitative detail in the course of movement. We will consider the inherent lines in the body's anatomy as the basis for movement material in a full range – from natural to designed, pleasing to provocative. REGISTER HERE!

Movement Research 466 Grand St. New York City, NY, 10002 https://movementresearch.org/event/3802 Schedule
